
Separation Magnetic Field Lines Occurring Doublets

electron transport in coronal loops: the influence of the ... - magnetic turbulence in the presence of a background magnetic field can be strongly anisotropic, and such anisotropy influences the separation of magnetic field lines, as well as the magnetic ... **separation of magnetic field lines in two-component turbulence** - separation of magnetic field lines in two-component turbulence d. ruffolo,1,2 w. h. matthaeus,3 and p. chuychai1,3 received 2002 december 24; accepted 2004 june 18 **e1 electric fields and charge - school of physics** - e1: electric fields and charge 3 electron cloud is equal to the number of protons in the nucleus. since the charges of the proton and electron are exactly equal in magnitude and opposite in sign, atoms are electrically neutral. **cmb foreground and separation methods** - polarization polarized perpendicular to the magnetic field lines degree of polarization $\Pi = \# +1 / (\# + 7/3)$ low frequency, low s/n, no accurate spectral index **separation of regional and residual magnetic field data** - separation of regional and residual magnetic field data ... south lines spaced 50 m apart and have been contaminated by fig. 1. the susceptibility model consists of a dipping dyke as a local source that is situated above a deep regional source and beside another regional source at a shallow depth. this model typifies the two relative positions between the local and regional source, i.e ... **magnetic field calculation of 63kv transmission lines** - magnetic field of three-phase transmission lines three-phase electric power is a common method of alternating-current electric power generation, transmission, and distribution. **ion separation due to magnetic field penetration into a ...** - volume 87, number 11 physical review letters 10 september 2001 ion separation due to magnetic field penetration into a multispecies plasma a. weingarten, r. arad, and y. maron **magnetic separators - magnetic filtration, foreign body ...** - conveying lines. the pneumag removes ferrous and para-magnetic contaminants from free-flowing powders conveyed at speeds of up to 25m/s. it purifies the transported product and reduces the risk of spark or piercing of filter sleeves. it is designed not to affect product flow. it incorporates an easy-clean magnetic grid and quick-release closures so it can be cleaned very quickly. the housing ... **level curves of power line magnetic field** - magnetic field (mf) near power line. the results are presented for the three representative power line geometries, with the different currents and for the different spacing. the results are ... **electric and magnetic fields (emfs) - national grid** - field produced is also nearly constant. magnetic fields depend on the electrical currents flowing, which vary according to the electrical power requirement at any given time. both fields diminish rapidly with distance from their source. electric fields are shielded by most common building materials, trees and fences, but magnetic fields are not. most of the scientific concern is about magnetic ... **a preliminary investigation into separating performance ...** - matrix rod in the horizontal magnetic field are located on both sides of the rod along the force lines of a magnetic field rather than along the direction of the flowing pulp. when a direct current to the excitation coil is applied, a strong magnetic field is generated in the
